SKILLS

- React Next.js
- TypeScript
- JavaScript (ES6+)
- Tailwind CSS
- Node.js (Learning)
- Express.js (Learning)
- MongoDB
- PostgreSQL
- Git & GitHub
- REST APIs
- API Integration
- Web Performance Optimization

EDUCATION

Self Taught Web Developer

Focused on modern JavaScript and fullstack development.

Osayame Victor

Frontend Developer

Backend (Node.js / Express) — Ongoing

PROFESSIONAL SUMMARY

Frontend Developer specializing in building modern web applications with React and Next.js. Experienced in building responsive user interfaces, integrating APIs, and developing fullstack applications using Node.js,

Express, MongoDB, and PostgreSQL. Built realworld projects including a developer event platform, cryptocurrency analytics dashboard, and a secure banking system with authentication and rolebased access control.

PROJECTS

Developer Event Dashboard — Next.js 16, React, Tailwind

- Built a responsive event discovery platform for developers using Next.js.
- Implemented emailbased event registration without requiring full user accounts.
- Designed reusable components and optimized UI responsiveness.

CoinPulse – Crypto Market Dashboard — Next.js, React, TypeScript

- Built realtime cryptocurrency market dashboard using WebSocket streaming.
- Implemented candlestick charts and live trading analytics.
- Optimized rendering performance for highfrequency market data.

Full Stack Banking Application — Next.js, Node.js, Express

- Built authentication system with email verification and password reset.
- Implemented protected routes and admin role management.
- Developed REST APIs using Node.js and Express.
